**DRAFT AIR QUALITY PERMIT**

**Permittee Name:** Roll Forming Corporation  
**Mailing Address:** P.O. Box 369  
Shelbyville, KY 40066-0369

is authorized to operate an aluminum rolling source at

**Source Name:** Same as permittee  
**Mailing Address:** Same as above  
**Source Location:** 1070 Brooks Industrial Road  
Shelbyville, KY 40065

**Permit Type:** Federally-Enforceable  
**Review Type:** Title V, NESHAP

**Permit Number:** V-97-041  
**Log Number:** E900  
**Application**  
**Complete Date:** February 11, 1997  
**KYEIS ID #:** 104-3680-0014  
**AFS Plant ID #:** 21-211-00014  
**FINDS Number:** KYD981021405  
**SIC Code:** 3355

**Region:** North Central  
**County:** Shelby

**Issuance Date:**  
**Expiration Date:** Upon issuance of a final permit

SECTION I	COMPLIANCE SCHEDULE		18

## **SECTION A - PERMIT AUTHORIZATION**

Pursuant to a duly submitted application which was determined to be administratively and technically complete on February 11, 1997, the Kentucky Division for Air Quality hereby authorizes the operation of the equipment described herein in accordance with the terms and conditions of this permit. This draft permit has been issued under the provisions of Kentucky Revised Statutes Chapter 224 and regulations promulgated pursuant thereto.

The permittee shall not construct, reconstruct, or modify any affected facilities without first having submitted a complete application and receiving a permit for the planned activity from the permitting authority, except as provided in this permit or in the Regulation 401 KAR 50:035, Permits.

Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by this Cabinet or any other federal, state, or local agency.

## **SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS**

### **03 (-) - Aging furnace**

Manufacturer: George Koch Sons Batch Oven  
Rated capacity: 1.5 MMBTU/hr  
Primary fuel: Natural gas  
Secondary fuel: None

Constructed in March, 1956

### **APPLICABLE REGULATIONS:**

401KAR 50:035

**1. Operating Limitations:**

None

**2. Emission Limitations:**

None

**3. Testing Requirements:**

None

**4. Specific Monitoring Requirements:**

401 KAR 50:035, Section 7(1)(c): Use of a plantwide natural gas meter.

**5. Specific Record keeping Requirements:**

401 KAR 50:035, Section 7(1)(d): Natural gas usage (gas meter records from utility bills).

**6. Specific Reporting Requirements:**

401 KAR 50:035, Section 7(1)(e)1: A monitoring report will be submitted at least every six months. All deviations from permit requirements shall be clearly identified and signed by a responsible official.

401 KAR 50:035, Section 7(1)(e)2: A written report will be submitted to the DAQ within 15 days of a deviation from permit conditions. The report will describe the cause of the deviation and corrective actions taken.

401 KAR 50:035, Section 23: Emission statement certification is to be completed once per year.

**7. Specific Control Equipment Operating Conditions:**

None

**8. Alternate Operating Scenarios:**

None

**SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**

**9. Compliance Schedule**

Not Applicable

**10. Compliance Certification Requirements**

401 KAR 50:035, Section 6

**11. State-Origin Requirements**

**a) Operating limitations:**

None

**b) Emission Limitations:**

None

**SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**

**04 (04) - Boiler for vapor degreaser unit**

Manufacturer: Fulton  
Model No.: FB-030-A  
Rated capacity: 1.35 MMBTU/hr  
Primary fuel: Natural gas  
Secondary fuel: None

Constructed after April 14, 1994.

**APPLICABLE REGULATIONS:**

401KAR 50:035  
401KAR 59:015

**1. Operating Limitations:**

None

**2. Emission Limitations:**

401KAR 59:015: 0.56 lb PM<sub>10</sub>/MMBTU (0.76 lb PM<sub>10</sub>/hr)  
3.0 lb SO<sub>2</sub>/MMBTU (4.05 lb SO<sub>2</sub>/hr)  
Opacity not to exceed 20%, based on a six-minute average

**Compliance Demonstration:**

Use of natural gas fuel

**3. Testing Requirements:**

None

**4. Specific Monitoring Requirements:**

None

**5. Specific Record keeping Requirements:**

401 KAR 50:035, Section 7(1)(d): Natural gas usage (gas meter records from utility bills).

**6. Specific Reporting Requirements:**

None

**SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)**

**7. Specific Control Equipment Operating Conditions:**

None

**8. Alternate Operating Scenarios:**

None

**9. Compliance Schedule**

Not Applicable

**10. Compliance Certification Requirements**

401 KAR 50:035 Section 6

**11. State-Origin Requirements**

**a) Operating limitations:**

None

**b) Emission Limitations:**

None

**SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)****05 (05) - Open top vapor degreaser unit**

Manufacturer:	Baron Blakeslee
Model No.:	SPEC IV
Serial No.:	20431
Solvent:	Trichloroethylene
Safety switches:	Condenser flow switch and thermostat Vapor level control thermostat
Vapor level controls:	Condensing coil Chilled water or refrigerant (temperature of coolant 50-60°F)
Method of heating:	Steam from 1.35 MMBTU/hr boiler
Type of cleaning action:	Vapor condensation
Tank cover:	Manual (tank is covered when not in use)
Control devices:	Reduced room draft Parts moved in and out at vertical speed of less than 11 ft/min

Constructed on February, 1968.

**APPLICABLE REGULATIONS:**

40 CFR 63 Subpart T  
401 KAR 50:035, Section 7 - Reporting  
401 KAR 50:045 Testing (mass balance)  
401 KAR 50:050 Monitoring (no requirements)

**1. Operating Limitations:**

None

**2. Emission Limitations:**

40 CFR 63 Subpart T: 2072.25 lbs halogenated solvent/month, 3 month rolling average

**Compliance Demonstration Method:**

On the first operating day of every month the solvent cleaning machine system will contain only clean liquid solvent. This includes, but is not limited to, fresh unused solvent, recycled solvent and used solvent that has been cleaned of solids. A fill line must be indicated during the first month the measurements are made. The solvent level within the machine must be returned to the same fill-line each month, immediately prior to calculating monthly emissions. The solvent cleaning machine does not have to be emptied and filled with fresh unused solvent prior to the calculations.

Using the records of all solvent additions and deletions for the previous monthly reporting period required, determine solvent emissions ( $E_i$ ) using equation 1.

## SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)

$$E_i = \frac{SA_i - LSR_i - SSR_i}{AREA_i} \quad (1)$$

where:

$E_i$  = the total halogenated HAP solvent emissions from the solvent cleaning machine during the most recent monthly reporting period I, (lbs of solvent per square foot of solvent/air interface area per month).

$SA_i$  = the total amount of halogenated HAP liquid solvent added to the solvent cleaning machine during the most recent monthly reporting period I, (lbs of solvent per month).

$LSR_i$  = the total amount of halogenated HAP liquid solvent removed from the solvent cleaning machine during the most recent monthly reporting period I, (lbs of solvent per month).

$SSR_i$  = the total amount of halogenated HAP liquid solvent removed from the solvent cleaning machine in solid waste, during the most recent monthly reporting period I, (lbs of solvent per month).  $SSR_i$  is determined by:

(i) From tests conducted using EPA reference method 25d.

(ii) By engineering calculations included in the compliance report.

$AREA_i$  = the solvent/air interface area of the solvent cleaning machine (square feet).

Determine the monthly rolling average, EA, for the 3-month period ending with the most recent reporting period using equation 2:

$$EA_i = \frac{\sum_{j=1}^3 E_i}{3} \quad (2)$$

where:

$EA_i$  = the average halogenated HAP solvent emissions over the preceding 3 monthly reporting periods, (lbs of solvent per square foot of solvent/air interface area per month).

$E_i$  = halogenated HAP solvent emissions for each month (j) for the most recent 3 monthly reporting periods (lbs of solvent per square foot of solvent/air interface area).

$j=1$  = the most recent monthly reporting period.

$j=2$  = the monthly reporting period immediately prior to  $j=1$ .

$j=3$  = the monthly reporting period immediately prior to  $j=2$ .

**SECTION B - EMISSION POINTS, AFFECTED FACILITIES, APPLICABLE REGULATIONS, AND OPERATING CONDITIONS (CONTINUED)****3. Testing Requirements:**

None

**4. Specific Monitoring Requirements:**

None

**5. Specific Record Keeping Requirements:**

40 CFR 63 Subpart T: Monthly purchase records for halogenated solvent. Calculations used to determine the solvent emissions as per equations (1) and (2).

**6. Specific Reporting Requirements:**

Refer to Section F for specific and/or general reporting requirements.

40 CFR 63 Subpart T: Statement of compliance, one time reporting requirement, May 1, 1998.

40 CFR 63 Subpart T: Annual compliance report, annually on February 1, for previous years' emissions.

40 CFR 63 Subpart T: Exceedance reporting, every six months if no exceedances, quarterly if limit is exceeded.

401 KAR 50:035, Section 7(1)(e)1: A monitoring report will be submitted at least every six months. All deviations from permit requirements shall be clearly identified and signed by the responsible official.

401 KAR 50:035, Section 7(1)(e)2: A written report will be submitted to the DAQ within 15 days of a deviation from permit conditions. The report will describe the cause of the deviation and corrective actions taken.

401 KAR 50:035, Section 23: Emission statement certification is to be completed once per year.

**7. Specific Control Equipment Operating Conditions:**

None

**8. Alternate Operating Scenarios:**

Refer to Section H

**9. Compliance Schedule**

Not Applicable

**10. Compliance Certification Requirements**

401 KAR 50:035, Section 6

**11. State-Origin Requirements****a) Operating limitations:**

None

**b) Emission Limitations:**

401 KAR 63:021:  $\leq 1.5$  gallons trichloroethylene emissions per hour  
(18.264 lb/hr), Permit No. S-95-105

**SECTION C - INSIGNIFICANT ACTIVITIES**

The following listed activities have been determined to be insignificant activities for this source pursuant to Regulation 401 KAR 50:035, Section 5(4).

<b><u>Description</u></b>	<b><u>Regulation</u></b>
1. Welding operations	401 KAR 59:010
2. Buffing, sanding, and grinding operations	401 KAR 61:020
3. Salt bath annealing operation	401 KAR 61:020
4. 550 gallon storage tank	401 KAR 50:035, Section 5(4)
5. 4 Modine hanging heaters	401 KAR 50:035, Section 5(4)
6. 2 Hot water heaters	401 KAR 50:035, Section 5(4)
7. 30 HP Boiler	401 KAR 50:035, Section 5(4)
8. 1 Heat treat furnace (0.6 MMBTU/hr)	401 KAR 50:035, Section 5(4)
9. 1 Hastings air make up unit, on roof	401 KAR 50:035, Section 5(4)
10. 2 Trane hanging heaters (bld. #1)	401 KAR 50:035, Section 5(4)
11. 2 Trane heaters on roof (15 tons each)	401 KAR 50:035, Section 5(4)
12. 15 Infrared heaters	401 KAR 50:035, Section 5(4)
13. Aqueous cleaner	401 KAR 50:035, Section 5(4)
14. Aging oven	401 KAR 50:035, Section 5(4)
15. Heat treat furnace	401 KAR 50:035, Section 5(4)

Not Applicable

Draft

**SECTION E - CONTROL EQUIPMENT CONDITIONS**

Not Applicable

Draft

## **SECTION F - MONITORING, RECORD KEEPING, AND REPORTING REQUIREMENTS**

1. When continuing compliance is demonstrated by periodic testing or instrumental monitoring, the permittee shall compile records of required monitoring information that include:
  - a) Date, place as defined in this permit, and time of sampling or measurements.
  - b) Analyses performance dates;
  - c) Company or entity that performed analyses;
  - d) Analytical techniques or methods used;
  - e) Analyses results; and
  - f) Operating conditions during time of sampling or measurement;
2. Records of all required monitoring data and support information, including calibrations, maintenance records, and original strip chart recordings, and copies of all reports required by the Division for Air Quality, shall be retained at the source authorized by this permit for a period of five years and shall be made available for inspection upon request by any duly authorized representative of the Division for Air Quality.
3. The permittee shall allow the Cabinet or authorized representatives to perform the following:
  - a) Enter upon the premises where a source is located or emissions-related activity is conducted, or where records are kept;
  - b) Have access to and copy, at reasonable times, any records required by the permit:
    - i) During normal office hours, and
    - ii) During periods of emergency when prompt access to records is essential to proper assessment by the Cabinet;
  - c) Inspect, at reasonable times, any facilities, equipment (including monitoring and pollution control equipment), practices, or operations required by the permit. Reasonable times shall include, but are not limited to the following:
    - i) During all hours of operation at the source,
    - ii) For all sources operated intermittently, during all hours of operation at the source and the hours between 8:00 a.m. and 4:30 p.m., Monday through Friday, excluding holidays, and
    - iii) During an emergency; and
  - d) Sample or monitor, at reasonable times, substances or parameters to assure compliance with the permit or any applicable requirements. Reasonable times shall include, but are not limited to the following:
    - i) During all hours of operation at the source,
    - ii) For all sources operated intermittently, during all hours of operation at the source and the hours between 8:00 a.m. and 4:30 p.m., Monday through Friday, excluding holidays, and
    - iii) During an emergency.
4. No person shall obstruct, hamper, or interfere with any Cabinet employee or authorized representative while in the process of carrying out official duties. Refusal of entry or access may constitute grounds for permit revocation and assessment of civil penalties.

## **SECTION F - MONITORING, RECORD KEEPING, AND REPORTING REQUIREMENTS (CONTINUED)**

5. Reports of any monitoring required by this permit, other than continuous emission or opacity monitors, shall be reported to the Division's Frankfort Regional Office no later than the six-month anniversary date of this permit and every six months thereafter during the life of this permit, unless otherwise stated in this permit. Data from the continuous emission and opacity monitors shall be reported to the Director in accordance with the requirements of Regulation 401 KAR 59:005, General Provisions, Section 3(3). All reports shall be certified by a responsible official pursuant to Section 6(1) of Regulation 401 KAR 50:035, Permits. All deviations from permit requirements shall be clearly identified in the reports.
6. In accordance with Regulation 401 KAR 50:055, Section 1, the owner or operator shall notify the Division for Air Quality's Frankfort Regional Office by telephone as promptly as possible any deviation from permit requirements, including those due to malfunctions, unplanned shutdowns, ensuing startups, or upset conditions. Pursuant to Regulation 401 KAR 50:035, Section 7(1)(e), the notification shall describe the probable cause of the deviations and corrective actions or preventive measures taken.
7. The permittee shall certify compliance with the terms and conditions contained in this permit, annually on the permit issuance anniversary date to the Division for Air Quality's Frankfort Regional Office and the U.S. EPA in accordance with the following requirements:
  - a) Identification of each term or condition of the permit that is the basis of the certification;
  - b) The compliance status regarding each term or condition of the permit;
  - c) Whether compliance was continuous or intermittent; and
  - d) The method used for determining the compliance status for the source, currently and over the reporting period, pursuant to 401 KAR 50:035, Section 7(1)(c),(d), and (e).
  - e) Other facts the Division may require to determine the compliance status of the source; and
  - f) The certification shall be postmarked by the thirtieth (30) day following the applicable permit issuance anniversary date.
8. In accordance with Regulation 401 KAR 50:035, Section 23, the permittee shall report all information necessary to determine its subject emissions.

## **SECTION G - GENERAL CONDITIONS**

### (a) General Compliance Requirements

1. The permittee shall comply with all conditions of this permit. A noncompliance shall be (a) violation(s) of state regulation 401 KAR 50:035, Permits, Section 7(3)(d), which is also a violation of Federal Statute 42 USC 7401 through 7671q (the Clean Air Act)]\_and is grounds for enforcement action including but not limited to the termination, revocation and reissuance, or revision of this permit.
2. The filing of a request by the permittee for any permit revision, revocation, reissuance, or termination, or of a notification of a planned change or anticipated noncompliance, shall not stay any permit condition.
3. This permit may be revised, revoked, reopened and reissued, or terminated for cause. The permit will be reopened for cause and revised accordingly under the following circumstances:
  - a) If additional applicable requirements become applicable to the source and the remaining permit term is three (3) years or longer. In this case, the reopening shall be completed no later than eighteen (18) months after promulgation of the applicable requirement. A reopening shall not be required if compliance with the applicable requirement is not required until after the date on which the permit is due to expire, unless this permit or any of its terms and conditions have been extended pursuant to Regulation 401 KAR 50:035, Section 12(2)(c);
  - b) The Cabinet or the U. S. EPA determines that the permit must be revised or revoked to assure compliance with the applicable requirements.;
  - c) The Cabinet or the U. S. EPA determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit;

Proceedings to reopen and reissue a permit shall follow the same procedures as apply to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists. Reopenings shall be made as expeditiously as practicable. Reopenings shall not be initiated before a notice of intent to reopen is provided to the source by the Division, at least thirty (30) days in advance of the date the permit is to be reopened, except that the Division may provide a shorter time period in the case of an emergency.

4. The permittee shall furnish to the Division, in writing, information that the Division may request to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit, or to determine compliance with the permit.
5. Any condition or portion of this permit which becomes suspended or is ruled invalid as a result of any legal or other action shall not invalidate any other portion or condition of this permit.
6. The permittee shall not use as a defense in an enforcement action the contention that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance.

## **SECTION G - GENERAL CONDITIONS (CONTINUED)**

### **(a) General Compliance Requirements (Continued)**

7. Except as identified as state-origin requirements in this permit, all terms and conditions contained herein shall be enforceable by the United States Environmental Protection Agency and citizens of the United States.
8. This permit shall be subject to suspension if the permittee fails to pay all emissions fees within 90 days after the date of notice as specified in 401 KAR 50:038, Section 3(6).
9. Nothing in this permit shall alter or affect the liability of the permittee for any violation of applicable requirements prior to or at the time of permit issuance.
10. This permit shall not convey property rights or exclusive privileges.
11. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by the Kentucky Cabinet for Natural Resources and Environmental Protection or any other federal, state, or local agency.
12. Nothing in this permit shall alter or affect the authority of U.S. EPA to obtain information pursuant to Federal Statute 42 USC 7414, Inspections, monitoring, and entry.
13. Nothing in this permit shall alter or affect the authority of U.S. EPA to impose emergency orders pursuant to Federal Statute 42 USC 7603, Emergency orders.
14. Permit Shield: Except as provided in State Regulation 401 KAR 50:035, Permits, compliance by the affected facilities listed herein with the conditions of this permit shall be deemed to be compliance with all applicable requirements identified in this permit as of the date of issuance of this permit.

## **SECTION G - GENERAL CONDITIONS (CONTINUED)**

### **(b) Permit Expiration and Reapplication Requirements**

This permit shall remain in effect for a fixed term of five (5) years following the original date of issue. Permit expiration shall terminate the source's right to operate unless a timely and complete renewal application has been submitted to the Division at least six months prior to the expiration date of the permit. Upon a timely and complete submittal, the authorization to operate within the terms and conditions of this permit, including any permit shield, shall remain in effect beyond the expiration date, until the renewal permit is issued or denied by the Division.

### **(c) Permit Revisions**

1. A minor permit revision procedure may be used for permit revisions involving the use of economic incentive, marketable permit, emission trading, and other similar approaches, to the extent that these minor permit revision procedures are explicitly provided for in the SIP or in applicable requirements and meet the relevant requirements of Regulation 401 KAR 50:035, Section 15.
2. This permit is not transferable by the permittee. Future owners and operators shall obtain a new permit from the Division for Air Quality. The new permit may be processed as an administrative amendment if no other change in this permit is necessary, and provided that a written agreement containing a specific date for transfer of permit responsibility coverage and liability between the current and new permittee has been submitted to the permitting authority thirty (30) days in advance of the transfer.

### **(d) Construction, Start-Up, and Initial Compliance Certification Requirements**

Not applicable.

### **(e) Acid Rain Program Requirements**

If an applicable requirement of Federal Statute 42 USC 7401 through 7671q (the Clean Air Act) is more stringent than an applicable requirement promulgated pursuant to Federal Statute 42 USC 7651 through 7651o (Title IV of the Act), both provisions shall apply, and both shall be state and federally enforceable.

### **(f) Emergency Provisions**

1. An emergency shall constitute an affirmative defense to an action brought for noncompliance with the technology-based emission limitations if the permittee demonstrates through properly signed contemporaneous operating logs or other relevant evidence that:
  - I) An emergency occurred and the permittee can identify the cause of the emergency;
  - ii) The permitted facility was at the time being properly operated;
  - iii) During an emergency, the permittee took all reasonable steps to minimize levels of emissions that exceeded the emissions standards or other requirements in the permit; and,

## **SECTION G - GENERAL CONDITIONS (CONTINUED)**

### **(f) Emergency Provisions (Continued)**

- iv) The permittee notified the Division as promptly as possible and submitted written notice of the emergency to the Division within two working days after the time when emission limitations were exceeded due to the emergency. The notice shall meet the requirements of 401 KAR 50:035, Permits, Section 7(1)(e), and include a description of the emergency, steps taken to mitigate emissions, and the corrective actions taken. This requirement does not relieve the source of any other local, state or federal notification requirements.
- 2. Emergency conditions listed in General Condition (f)1 above are in addition to any emergency or upset provision(s) contained in an applicable requirement.
- 3. In an enforcement proceeding, the permittee seeking to establish the occurrence of an emergency shall have the burden of proof.

### **(g) Risk Management Provisions**

The permittee shall comply with all applicable requirements of 40 CFR Part 68, Risk Management Plan provisions. If required, the permittee shall:

- a. Submit a Risk Management Plan to U.S.EPA, Region IV with a copy to this Division and comply with the Risk Management Program by June 21, 1999 or a later date specified by the U.S.EPA.
- b. Submit additional relevant information if requested by the Division or the U.S. EPA.

### **(h) Ozone depleting substances**

- 1. The permittee shall comply with the standards for recycling and emissions reduction pursuant to 40 CFR 82, Subpart F, except as provided for Motor Vehicle Air Conditioners (MVACs) in Subpart B:
  - a. Persons opening appliances for maintenance, service, repair, or disposal shall comply with the required practices contained in 40 CFR 82.156.
  - b. Equipment used during the maintenance, service, repair, or disposal of appliances shall comply with the standards for recycling and recovery equipment contained in 40 CFR 82.158.
  - c. Persons performing maintenance, service, repair, or disposal of appliances shall be certified by an approved technician certification program pursuant to 40 CFR 82.161.
  - d. Persons disposing of small appliances, MVACs, and MVAC-like appliances (as defined at 40 CFR 82.152) shall comply with the recordkeeping requirements pursuant to 40 CFR 82.166.

## **SECTION G - GENERAL CONDITIONS (CONTINUED)**

### (h) Ozone depleting substances (Continued)

- e. Persons owning commercial or industrial process refrigeration equipment shall comply with the leak repair requirements pursuant to 40 CFR 82.156.
  - f. Owners/operators of appliances normally containing 50 or more pounds of refrigerant shall keep records of refrigerant purchased and added to such appliances pursuant to 40 CFR 82.166.
2. If the permittee performs service on motor (fleet) vehicle air conditioners containing ozone-depleting substances, the source shall comply with all applicable requirements as specified in 40 CFR 82, Subpart B, Servicing of Motor Vehicle Air Conditioners.
